

Assembly Instruction for Anti-Slip Protection

The anti-slip protection is suitable for grating with H and N mesh widths. (c/c 33 and 17 mm) and A grates with 33 x 11 mm mesh.
Available for 20, 25 and 30 mm high grates.

Stamp with your foot or use a rubber mallet

NOTE!

Place the anti-slip protection centred in the grate mesh as shown in picture.
Make sure the anti-slip protection is straight and is firmly set with the “legs” blocked under the grating.
