

Quality policy

Weland AB is a unique industry. A high rate of investment, combined with the desire to constantly improve and develop are important for Weland. Weland AB is a family company with a flat structure that enables fast decision-making.

Quality, experience, knowledge and environmental consideration have strengthened our operations and made us a success.

We are a reliable partner that values long-term relationships with our customers. Our strength and competitive edge lie in satisfying our customers by supplying products of the right quality, at the right time and at the right price, providing both ourselves and our customers with the best overall economy.

Mainstays for our quality work:

- Each delivery will constitute a recommendation for future business.
- Agreed delivery times will be met.
- Internal quality failure costs will be addressed.
- Measures will be based on facts, with a big-picture view of our business and a long-term perspective.
- We will achieve the standards required of us.
- We will drive continuous quality improvements.
