

Grating furniture

Picnic furniture and seats

WELAND

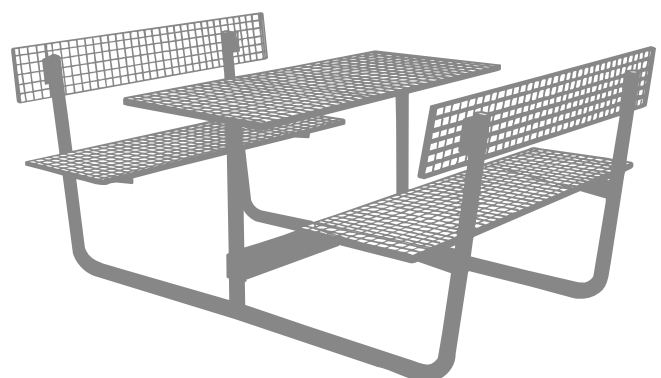

Picnic furniture

Picnic furniture that withstands most things

Grating furniture special developed for environments where it is exposed to rough treatment. The furniture fits together in a unit and can be anchored to the ground.

Weland picnic furniture is made from hot-dipped galvanised steel grating. Suitable for car parks, kiosks, hamburger and hot-dog stands, picnic places, restaurants, camp sites, bathing places, ski resorts etc. Wherever you want to sit down and take a break.

Dimensions: Length x Height x Width = 1920 x 856 x 1300 mm. Weight: 71.5 kg

- *Can stand outside all year round without suffering damage*
- *Can be anchored to the ground*
- *You avoid the work of taking it in and repairing it in the winter*
- *Best imaginable surface treatment*
- *Durable and uninteresting target for vandalism*
- *Lets the rain run through, doesn't absorb water and dries quickly*
- *The furniture is stable and comfortable to sit on*

Grating seats

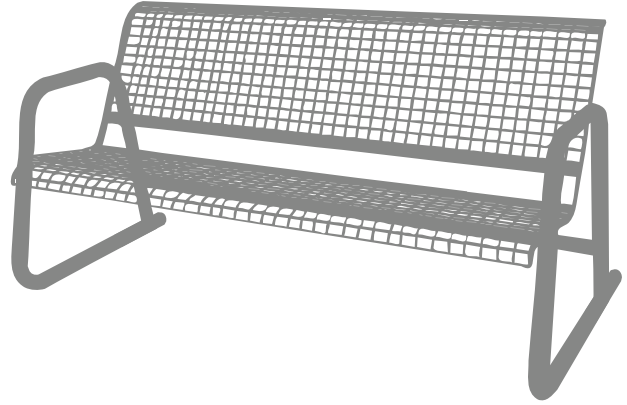

Grating seats for extra-tough environments

Weland grating seats are made from hot-dipped galvanised steel grating. Robust and "trendy" design for use both indoors and out.

Suitable for public spaces, such as streets and squares, parks, golf courses, picnic places, camp sites, bathing places etc. or for private use.

The seats can be anchored in the ground so they remain where they are supposed to be.

Dimensions: Length x Height x Width = 1594 x 820 x 763 mm
Weight: 46.1 kg

- *Can stand outside all year round without suffering damage*
- *Can be anchored to the ground*
- *You avoid the work of taking it in and repairing it in the winter*
- *Best imaginable surface treatment*
- *Durable and uninteresting target for vandalism*
- *Lets the rain run through, doesn't absorb water and dries quickly*
- *The furniture is stable and comfortable to sit on*

Picnic furniture with seating made from aluminium sections

Our subsidiary, Weland Utemiljö, has a furniture series with seating made from extruded aluminium that is coated with wood-like foiling. The furniture is maintenance free and can stand outside all year round.

Picnic furniture is available in two versions - one that is moveable with a steel frame and one that is permanently installed on a base.

Comfortable seat - permanent installation on a base

Weland Utemiljö seats are made entirely from aluminium and are suitable for environments where they will not be subjected to extreme wear, e.g. residential areas, playgrounds, golf courses, bus and rail terminals, parks etc.

The coating on the aluminium sections makes it easy to remove dirt and graffiti.
